RULES AND REGULATIONS

II. GENERAL RULES AND REGULATIONS

A. Additional Rules and Regulations. These Rules and Regulations are in addition to the rules of the Kentucky Public Service Commission as of March 1, 1986, and are subject to change at any time, subject to the approval of the Public Service Commission.

1. Meters: Each customer shall be metered individually, i.e. one (1) meter per residence or business. Each customer who has two (2) or more residences on one (1) meter will have the option of installing a meter(s) or paying a minimum monthly charge per residence or business. In the event customers do not respond to the District by accepting one of these options, the District will install the meter.
2. Application for Service. Each prospective customer desiring water service is required to sign the District's Standard Water Service Contract before service is supplied by the District. No service will be installed unless there is a main distribution line existing along the road from which service is requested. If the distance from the water main to the property of the customer is greater than 50 feet, the customer will be required to pay the cost of installing the pipe for the additional footage. A contribution in aid of construction as provided in the Schedules of Rates and Charges must be paid on all new connections to the existing water line. Applications for service connection will not be processed if the applicant is indebted to the District for any reason whatsoever. Extensions to the utilities main shall be in accordance with 807 KAR 5:066, Section 12(2).
3. Discontinuance of Service by the District. District may refuse to connect or may discontinue service for the violation of any of its Rules and Regulations, or for violation of any of the provisions of the Schedules of Rates and Charges, or of the customer service contract. District may discontinue service to customer for the theft of water or the appearance of water theft devices on premises of customer. The District shall not be required to restore service until the customer has complied with all rules and regulations of the Commission and the District has been reimbursed for the estimated amount of the service rendered and for any cost incurred by reason of the fraudulent use. All discontinuance of services is subject to the Notice Requirements of 807 KAR 5:006, Section 14.

RULES AND REGULATIONS

4. Billing. Bills will be rendered monthly and shall be paid within ten days from the date of bill at the Office of the District. Failure to receive bill will not release customer from payment obligations. Should bill not be paid as above, the District may at any time subsequent to twenty (20) days after the mailing date of the original bill, and at least five (5) days written notice, discontinue service. Should the final date for payment of the bill at the net rates fall on Sunday or holiday, the business day next following the final date will be held as a day of grace for delivery of payment.
5. Deposits. This utility has an equal deposit policy. A deposit is required from every customer. Residential and Commercial/Industrial deposit amounts are set out in the Rates and Charges portion of this tariff. Deposit refunds and interest shall be made 18 months after receipt of the deposit unless the customer has an unsatisfactory payment history. Customers with an unsatisfactory payment history will be reviewed after the next 18 month period and if a good payment history has been maintained deposits and interest will be refunded. Upon termination of service, the deposit, any principal amounts, and interest earned and owing shall be credited to the final bill with any remainder refunded to the customer. Interest will be paid on all sums held on deposits at a rate no greater than the water district receives in interest and at no time shall the interest payable to the customer exceed six (6) percent annually. The interest will be applied as a credit to the customer's bill or will be paid to the customer on an annual basis. If the deposit is refunded or credited to the customer's bill prior to the deposit's anniversary date, interest will be paid or credited to the customer's bill or paid to the customer annually. Interest will be computed by a method which will result in an amount no less than that obtained by using a middle course method between simple and compound interest in compliance with the Commission Order dated October 31, 1989 in Case No. 89-057, interest on deposits computed in this manner will accrue until credited to the customer's bill or paid to the customer.
6. Point of Delivery. The point of delivery is the point where the meter is located on the customer's premises. All water lines, plumbing, and equipment beyond the meter shall be installed and maintained by the customer.

RULES AND REGULATIONS

13. Non-standard Service. Customer shall pay the cost of any special installation work necessary to meet a peculiar requirement for service other than a standard water tap.
14. Scope. The Schedule of Rules and Regulations is a part of all contracts for receiving water service from the District, and applies to all service received from the District whether the service is based upon contract agreement, signed application, or otherwise. A copy of this schedule, together with a copy of the District's Schedule of Rates and Charges, shall be kept open to inspection at the Office of the District.
15. Damage to District's Water System. No person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure appurtenance, or equipment which is a part of the District's water works. Any person violating this provision shall be subject to discontinuation of water service and shall pay the cost of repairing or replacing the pipe or appurtenance as may be determined by a court of law having jurisdiction.
16. Relocation of Water Facilities. District may, at the request of customer, relocate or change existing District owned equipment. Customer shall reimburse District for such changes at actual cost including appropriate overhead.
17. Revisions. These Rules and Regulations may be revised, amended, supplemented, or otherwise changed from time to time by either of the two (2) following methods:
 - a) By order of the Public Service Commission upon formal application by the District, and after hearing, as provided by Commission regulation set forth in 807 KAR 5:011, Section 6.
 - b) By issuing and filing on a least twenty (20) days notice to the Commission and the public all proposed changes in the Rules and Regulations, as provided by Commission regulations set forth in 807 AKR 5:011, Section 8.
18. Conflict. In case of conflict between any provisions of any rate schedule and schedule of rules and regulations, the rate schedule shall apply.

RULES AND REGULATIONS

19. Bill Adjustment. In conformity with 807 KAR 5:006, Section 9 of Commission regulation, whenever a meter in service is found upon periodic request or complaint test to be more than two percent (2%) fast or two percent (2%) slow, then the customer's bill will be recomputed for the period in which the meter error occurred. If the period in which the meter error existed is unknown, then the bill will be recomputed for one-half (1/2) of the elapsed time since the last previous test, but in no case to exceed twelve (12) months. When a meter is tested and is found necessary to make a refund or back bill a customer, the customer shall be given written notification of the date, location, and results of the test, as well as the amount to be deducted from or added to his regular bill.
20. Extensions to Private Developments. All extensions to the system's transmission or service mains required to service a private development shall be subject to a Line Extension Agreement executed between the Developer and the Water District.
21. Flush Hydrants. The District places hydrants at various points throughout the system solely for maintenance and flushing purposes. The District will not object to the use of these hydrants by fire departments in emergency situations; however, it must be understood:
- a) The intended use of hydrants is not fire protection.
 - b) The District will not guarantee any amount of water pressure at any given hydrant.
 - c) Emergency users will not use pumps to pull water from any hydrant.
 - d) The District will not be responsible for any claims arising from the use of flush hydrants for any purpose by persons other than Farmdale Water District personnel.
 - e) Conventional fire hydrants may be installed by a utility only on six (6) inch or larger water mains and only when a professional engineer with the Kentucky registration certifies that adequate and reliable fire flows can be obtained in conformance with good standard engineering practice.

RULES AND REGULATIONS

22. Extension of Service. In accordance with 807 KAR 5:066, line extension will be made as follows:

a) Normal Extension:

An extension of fifty (50) feet or less shall be made by a utility to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for on (1) year or more and provides a guarantee for such service.

b) Other Extensions:

1. When an extension of the utility's main to serve an applicant or group of applicants amounts to more than fifty (50) feet per applicant, the utility may if not inconsistent with its filed tariff require the total cost of the excessive footage over fifty (50) feet per customer to be deposited with the utility by the applicant or the applicants based on the average estimated cost per foot of the total extension.

2. Each customer receiving service under such extension will be reimbursed under the following plan: Each year for a period of not less than ten (10) years, which for the purpose of this rule shall be the refund period, the utility shall refund to the customer or customers who paid for the excessive footage the cost of fifty (50) feet of the extension in place for each additional customer connected during the year whose service line is directly connected to the extension installed and not to extensions or laterals therefrom, but in no case shall the total amount refunded exceed the amount paid the utility. After the end of the refund period, no refund will be required to be made.

c) An applicant desiring an extension to a proposed real estate subdivision may be required to pay the entire cost of the extension. Each year for a period of not less than ten (10) years the utility shall refund to the applicant who paid for the extension a sum equal to the cost of the fifty (50) feet of the extension installed for each additional customer connected during the year but in no case shall the

total amount exceed the amount paid to the utility. After the end of the refund period from the completion of the extension, no refund will be required to be made.

- d) Nothing contained herein shall be construed to prohibit the utility from making extensions under different arrangements provided such arrangements have been approved by the PSC.
- e) Nothing contained herein shall be construed as to prohibit a utility from making at its expense greater extensions than herein prescribed, should its judgement so dictate, provided like free extensions are made to other customer under similar conditions.
- f) Upon complaint to and investigation by the PSC, a utility may be required to construct extensions greater than fifty (50) feet upon a finding by the PSC at such extension is reasonable.

B. Monitoring of Customer Usage.

- 1. This utility monitors customer's usage on a monthly basis.
- 2. If the monthly usage is substantially the same for the proceeding month or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions, common to all customers, no further review will be done.
- 3. If the monthly usages differ by 100% or more and cannot be attributed to a readily identified common cause, the utility will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same month of the preceding year.
- 4. If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the utility will contact the customer by telephone or in writing to determine whether there have been changes such as different appliances, changes in business volume, or known leaks in the customer's service line.

Water Shortage Response Plan

FARMDALE WATER DISTRICT

Section 1. Purpose. The purpose of this Plan is to provide for the declaration of official phases of water supply shortages and the implementation of voluntary and mandatory water conservation measures throughout the Farmdale Water District in the event a shortage is declared.

Section 2. Definitions. These terms are applicable only for this plan unless specifically noted.

(a) "Customer" shall mean any person or entity using water for any purpose from the District's water distribution system and for which either a regular charge is made or, in the case of bulk sales, a cash charge is made at the site of delivery.

(b) "Raw Water Supplies" shall mean all water potentially available to persons in the District.

(c) "Treated Water" shall mean water that has been introduced by the District into its water distribution system, including water offered for sale. Uses of treated water are classified as follows:

Essential Water Uses (Class 1):

The following uses of water, listed by site or user type, are essential.

Domestic:

- water necessary to sustain human life and the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation.

Health Care Facilities:

- patient care and rehabilitation, including related filling and operation of swimming pools.

RULES AND REGULATIONS

Public Use:

- use of fire hydrants (excluding Class 1 and Class 2 uses), including use of sprinkler caps, testing fire apparatus and fire department drills,
- flushing of sewers and hydrants except as needed to ensure public health and safety as approved by health officials.

Commercial and Civic Use:

- serving water in restaurants, clubs, or eating places, except by customer request,
- failure to repair a controllable leak,
- increasing water levels in scenic and recreational ponds and lakes, except for the minimum amount required to support fish and wildlife.

Ornamental Purposes:

- fountains, reflecting pools and artificial waterfalls.

Outdoor Non-Commercial Watering:

- use of water for dirt control or compaction,
- watering of annual or non-woody plants, lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, ~~driveways~~ **PUBLIC SERVICE COMMISSION OF KENTUCKY** parking lots, tennis courts or other hard-surface areas, **EFFECTIVE**
- washing down buildings or structures **JUL 26 1988** for purposes other than immediate fire protection,
- flushing gutters or permitting water **PURSUANT TO 807 KAR 5:011, SECTION 5(1)** to accumulate in any gutter or street.

RULES AND REGULATIONS

Outdoor Commercial or Public Watering:

- expanding nursery facilities, placing new irrigated agricultural land in production, or planting of landscaping except when required by a site design review process,
- use of water for dirt control or compaction,
- watering of lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,
- washing down buildings or structures for purposes other than immediate fire protection,
- flushing gutters or permitting water to run or accumulate in any gutter or street.

Recreational uses other than those specified in Class 2.

Non-Commercial washing of motor and other vehicles.

Air Conditioning (see also Class 2 purposes):

- refilling cooling towers after draining
- (d) "Base Entitlement" shall mean the monthly usage for a customer during the same month of the receding calendar year or the average per customer usage for each class of service during the same month of the preceding year.
- (e) "Curtailed Entitlement" shall mean the monthly usage for a customer after any curtailment percentage has been applied.
- (f) "Curtailment" shall mean the reduction in entitlement by some percentage to meet anticipated water shortages.

Farmdale Water District

RULES AND REGULATIONS

(g) Water Shortage Response Phases:

"Advisory" shall mean that conditions exist which indicate the potential for serious raw or treated water supply shortages.

"Alert" shall mean the raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.

"Emergency" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.

(h) "Rationing" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supply and to assure that sufficient water is available to preserve public health and safety.

Section 3. Applicability. The provisions of this plan shall apply to all retail and wholesale customers of the Farmdale Water District. When implemented, this plan becomes Farmdale Water District's Water Shortage Response Regulation.

Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern

Section 5. Determination of Water Shortage. Water supply and usage shall be monitored on a continuous basis. Unmet demand shall be projected from past records and adjusted for changes in new developments and weather conditions on a regular basis. (Note: a sample calculated page is attached as Appendix A to assist in determining overall water levels. It is important that accurate water measurements be used.) Water shortages generally occur for two reasons, a reduction in available supplies, or a system failure. Each of these has a distinct influence on the nature and duration of the conservation program implemented. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water use shall be approved by the Commissioners.

RULES AND REGULATIONS

Section 6. Term of Water Shortage Declaration. Any water shortage declaration shall remain in effect until water supplies of service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the Commissioners of Farmdale Water District.

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

(1) Criteria: A water advisory shall be declared when the amount of treated water available to the District from our supplier could become limited and the supplier has declared an advisory, or there are periods of low water pressure in one or more areas of the distribution system due to system failure or inadequacies or the State Division of Water issues a Water Shortage Watch which includes the areas from which the District draws water.

(2) Conservation and Curtailment Measures:

(a) Declare a Water Shortage Advisory.

(b) Provide proper notice to all customers and to all local news media.

(c) Eliminate all water leaks.

(d) Request voluntary conservation of all non-essential (Class 3) water use.

(e) Request wholesale customers also request for voluntary conservation by their customers of all non-essential (Class 3) water use.

(2) Conservation and Curtailment Measures:

- (a) Declare Water Shortage Alert.
- (b) Provide proper notice to all customers and to all local news media
- (c) Eliminate all water leaks.
- (d) Prohibit all non-essential (Class 3) water uses.
- (e) Curtail entitlements to all customers by the same percentage as the projected shortage.
- (f) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$5.00 per 1,000 gallons.

C. Emergency Stage:

1. Criteria: A Water Emergency shall be declared when the amount of treated water available from our supplier is projected to be below demand, or there are periods of no water in one or more areas of the distribution system due to low water supply or our supplier declares an emergency.
2. Conservation and Curtailment Measures:
 - (a) Declare Water Shortage Emergency.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.
 - (d) Prohibit all Class 3 uses of water.
 - (e) Prohibit all Class 2 uses of water except Domestic uses for kitchens bathrooms and laundries.
 - (f) Curtail all commercial and industrial entitlements (except Health

Care Facilities) by 100%.

- (g) Curtail Residential entitlements by the same percentage as the projected shortage.
- (h) Curtail entitlements to all wholesale customers by the same percentage as the projected shortage.
- (i) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$6.50 per 1,000 gallons.

D. Rationing Stage:

1. Criteria: Treated water available from the supplier is below the level necessary to meet essential needs, and in the opinion of Commissioners of the Farmdale Water District and our supplier, mandatory rationing is required to insure adequate water is available to maintain public health and safety.
2. Conservation and Curtailment Measures:
 - (a) Declare Water Shortage Rationing.
 - (b) Provide proper notice to all customers and 807 KAN 5011, local news media.
 - (c) Eliminate all water leaks.
 - (d) Prohibit all Class 3 and Class 2 uses of water.
 - (e) Curtail all commercial and industrial entitlement (except Health Care Facilities) by 100%.
 - (f) Curtail all residential and wholesale entitlements by the same percentage as the projected shortage.
 - (g) Implement service interruptions to portions of system in accordance with approved published schedule. The schedule shall be provided

to all local media.

- (h) Begin billing customer water usage in excess of curtailment entitlement at the normal rate plus an excess usage charge of \$8.00 per 1,000 gallons.

Section 8. Enforcement of Water Restriction. Any person who violates the provisions of this Plan, who fails to carry out the duties and responsibilities imposed by this Plan, or who impedes or interferes with any action undertaken or ordered pursuant to this plan shall be subject to the following:

- (a) If the utility official charged with implementation and enforcement of this Plan learns of any violation of any water use restriction imposed, a written notice of the violation shall be affixed to the property where the violation occurred and mailed to the customer of record. Said notice shall describe the violation and order that it be corrected, cured, or abated immediately or within 48 hours.
- (b) The notice will inform the customer of his or her right to appeal by requesting a hearing before the utility's designee. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard before termination. The governing body shall make findings of fact and decide whether service should continue or terminate.
- (c) Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to the approved reconnection fee prior to reconnection of service.
- (d) The excess usage charge billing provisions of this Plan shall not be put in effect if a county or city ordinance containing penalty provisions is in effect to assist enforcement of the Plan.

RULES AND REGULATIONS

For these purposes, "extraordinary hardship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then an exception shall be granted and a found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Any person aggrieved by the decision may file a complaint with the Public Service Commission.

(b) Exception to curtailment surcharge: Exceptions to excess use charges shall not be considered or granted.

Section 10. Severability. If any provision of this Plan is declared invalid by the courts, the remainder of the Plan and its applicability to other persons and circumstances shall not be affected by that declaration.

Section 11. Effective Date. This Plan shall take effect immediately upon approval by the Public Service Commission.
